NOTE TO USERS:

Data Revisions

Due to revisions by Statistics Canada, data on exports of grains and oilseeds have been changed. As a result, the total values of Alberta and Canadian agri-food exports from 1994 to 1997 are different from those reported in previous editions of this publication. These changes are reflected in the summary tables (1 to 16).

What's New?

For the purpose of comparison, the 1998 report provides revised statistics on 1997 exports and percentage changes from the previous year. Tables presenting exported products by country of destination are sorted by the 1998 highest value and limited to the top 25 countries.

Provided totals may not add up due to rounding. Per cent changes are calculated on unrounded numbers.

ALBERTA'S AGRI-FOOD EXPORTS IN 1998

INTRODUCTION

This report presents information on international agri-food exports for the 1998 calendar year. For the purpose of comparison, it also provides revised statistics on 1997 exports. Alberta international agri-food exports include primary agriculture commodities (animals and crops) and valued added processed products. The latter refer to manufactured products such as meats, other foods, feeds, beverages and by-products of manufacture (crude animal and plant products).

Information on agri-food exports provided in this report is divided into three sections. The first section summarizes agri-food export statistics by product and country from 1994 to 1998. The second section presents exported commodities/products in 1998 and 1997, and the third presents exports by country of destinations.

Presented statistical tables include information for Alberta and Canada. Totals may not add up due to rounding. Per cent changes are calculated on unrounded numbers.

SOURCES AND METHODS

International export statistics are compiled by Statistics Canada according to the "General" system of trade defined by the Statistical Office of the United Nations. Under this system, domestic exports encompass all goods grown, extracted or manufactured in Canada, including goods of foreign origin which have been materially transformed in Canada. Alberta estimates presented herein, represent the portion of total Canadian domestic export.

Exports are, in principle, valued or recorded at the values declared on export documents which usually reflect the transaction value or the actual selling price. Canadian exports to other countries are valued at "Free on Board" port of exit basis, including freight charges to that point

but net of discounts and allowances.

International export statistics are generally sourced from the International Trade Division of Statistics Canada and reported on a Customs basis. Customs-based statistics may understate and/or incorrectly portray the destination of exports or the province of origin of exported goods. For this reason, in a number of cases, adjustments to Statistics Canada's export data were required to overcome inaccuracies resulting from the attribution of exports on a province of lading basis, rather than by province of origin. While this adjustment process does not generally make a major difference, it nevertheless results in more reliable provincial data at the commodity level.

INTERNATIONAL EXPORTS

Alberta agri-food exports, which include primary agriculture commodities and valued added processed products, averaged 15 per cent of Alberta total merchandise exports between 1994 and 1998. It also represents about one-quarter of Canadian total agri-food exports to other countries. In 1998, Alberta was the second largest provincial exporter of agri-food products in Canada after the province of Ontario.

During the last ten years, from 1989 to 1998, Alberta's agri-food exports more than doubled rising from \$2.4 billion to \$5.0 billion. This growth was mostly attributable to steady increases in shipments to the United States.

Alberta agri-food exports have become more diversified, moving toward value added processed products. Exports of these products more than tripled, from \$620 million in 1989 to \$2.1 billion in 1998. Exports of primary commodities (animals and crops) also rose from \$1.8 billion to \$2.9 billion. Although exports of raw commodities remain higher than value added exports, the proportion of raw farm products

continued to decline, dropping from 75 per cent in 1989 to 25 per cent in 1998. During the same period, the share of value added products grew from 25 per cent to 42 per cent. These trends reflect the growing importance of value added processed products in Alberta agri-food exports.

In 1998, Alberta exported \$5.0 billion worth of agri-food products. The 1998 agri-food exports declined 5.5 per cent, following four years of steady growth, culminating in a record high of \$5.3 billion in 1997. Alberta accounted for 22 per cent of Canadian total agri-food exports, valued at \$22.8 billion in 1998, up marginally from \$22.6 billion in 1997.

Growth in exports of value added processed products continued, although at a slower pace from the double digit gain of 20 per cent in 1997 to 6.6 per cent in 1998. The 1998 gain was driven by larger purchases of beef, oilseed cake and meal, and cereal preparations. During the same period, exports of raw commodities fell 12.7 per cent to \$2.9 billion. Reduced shipments of wheat and barley to Asia, the Middle East and South America, and falling global grain prices contributed to this decline.

EXPORT COMMODITIES

Alberta's top ten agri-food export commodities in 1998 were wheat, beef, live cattle, canola seed, canola oil, oilseed cake and meal, raw hides and skins, barley, pork and live hogs. These 10 commodities, together, accounted for 80 per cent of the province's total agri-food exports during the year.

Wheat, historically Alberta's largest export commodity, fell to its lowest level in the last three years. Revenue dropped 27 per cent to \$1.2 billion in 1998 (revised) from \$1.6 billion a year earlier. As well, the value of wheat exports, as a proportion of total agri-food export revenues declined to 23 per cent from 30 per cent in 1997. Export quantity was also down by 26 per cent to 5.2 million tonnes, from 7.1 million tonnes in 1997. **Barley** exports fell sharply by more than 50 per cent, both in value and quantity, to \$121 million and 606,337 tonnes.

Exports of **canola seed** rose 35 per cent to \$558 million (revised) from \$414 million in 1997. Also, export quantity

grew 42 per cent to 1.3 million tonnes. However, the 1998 sales of canola seed to Japan, Alberta's major market for this commodity, declined 14 per cent to \$246 million. The decline was more than offset by higher exports to China, Hong Kong, the United States and Mexico. Among the other oilseeds, flaxseed and mustard seed both posted declines, of 30 per cent and 16 per cent, respectively.

Value of shipments of **live cattle** (excluding purebred) grew 5.7 per cent to \$694 million in 1998, while quantity was down 2.4 per cent to 574,677 head. On the other hand, sales of **live hogs** rose 40 per cent to \$86 million and the number surged 88 per cent to 684,079 head. Increased exports of live hogs to the U.S. contributed to the growth.

Gains in exports of live hogs were offset by sharp declines in sales of pork. The value of exported **pork** was down 52 per cent and quantity dropped 41 per cent. It was the lowest export of pork during the past five years (1994-1998).

On the positive side, **beef exports** continued to grow, rising 36 per cent in value to \$941 million and 20 per cent in quantity to 260,404 tonnes. The growth in beef exports was achieved due to larger shipments to the United States and Japan. In 1998, beef was the second largest export commodity in terms of value. Between 1990 and 1998, the share of beef exports of total Alberta's agri-food exports rose from three per cent to 19 per cent. Alberta is the number one exporter of beef in Canada.

Shipments of **canola oil**, worth \$150 million, declined 15 per cent in 1998. As well, export quantity was down nearly 32 per cent to 139,994 tonnes. Declines also occurred in exports of **raw hides and skins** and **prepared animal feeds**. These declines were offset by increased export values of **oilseed cake and meal** (46%) and **cereal preparations** (86%).

Fish and fish products exports, which include live fish, fish fresh or frozen, fish fillets, dried fish, crustaceans, molluscs and processed fish products, rose about 10 per cent. The total 1998 value of fish exports was \$1.0 million, compared to \$913 thousand in 1997. The United States is the primary destination for Alberta fish shipments.

TRADING PARTNERS

Alberta's top ten agri-food export markets in 1998 were: United States, Japan, China, Mexico, Indonesia, South Korea, Algeria, Iran, Italy and Colombia. These 10 countries, together, represented 83 per cent of the province's total agri-food exports during the year.

The primary destination of Alberta agri-food exports remains the United States. **From 1994 to 1998**, this market represented, on average, about half of Alberta's total international exports. Japan accounted for an average 15 per cent of the total, China six per cent, Mexico three per cent and Indonesia two per cent.

THE UNITED STATES

The United States, as always, was Alberta's largest export market for commodities grown and processed in the province. In 1998, agri-food exports to this market reached another record, at \$2.7 billion, rising nearly 10 per cent. The 1998 revenue from exports to the U.S. accounted for more than half of Alberta's total agri-food exports.

The 1998 increase in Alberta's exports to the U.S. resulted from higher exports of beef, live hogs, canola seed, oilseed cake and meal, and cereal preparations. Partially offsetting these increases were lower shipments (value and quantity) of wheat, barley, oats and pork.

Following a decline in 1997, the number of **live cattle** exported to the U.S. fell another 2.4 per cent per cent to 574,677 head while total export value rose 5.7 per cent to \$694 million. The United States is the primary market for Alberta's live cattle and live hogs. About 99 per cent of cattle and almost 100 per cent of hogs are shipped to this market

Lower exports of live cattle were offset by increased exports of **beef**. Beef exports continued to grow, rising 19 per cent in quantity to 231,333 tonnes and 36 per cent in value to \$843 million. Overall, beef shipment to the U.S. account for more than 90 per cent of the total beef quantity shipped to all countries

Shipments of **pork** were down 32 per cent in quantity

and 46 per cent in value, due to higher sales of live hogs. The 1998 export of **live hogs** rose significantly by about 90 per cent to 684,026 head, while value was up 41 per cent to \$86 million.

Exports of the major cereal grains declined in value and quantity. Value of exported **wheat** was down 17 per cent to \$108 million and revenue from **barley** exports declined 22 per cent to \$58 million. The barley export dropped to its lowest level during the last five years (1994-1998). As well, **oats** sales decreased almost 39 per cent to \$36 million.

Exports of **canola seed** rose 5.1 per cent and quantity was up about 10 per cent. Shipments of **oilseed cake and meal** continued to grow, rising 35 per cent to \$109 million.

Factors contributing to the sustained growth in exports to the U.S. include the low value of the Canadian dollar relative to the U.S. dollar and the two free trade agreements: the Canada- U.S. Free Trade Agreement (FTA) implemented in 1989 and North American Free Trade Agreement (NAFTA) implemented in 1994.

1998 marked the tenth anniversary of the Canada-U.S Free Trade Agreement (FTA). Since the FTA, the U.S. market share of Alberta's agri-food exports has steadily grown, from 30 per cent in 1989 to 52 per cent in 1998. During the last ten years, revenues from exports to the U.S. more than tripled, rising from \$722 million in 1989 to a record high of \$2.7 billion in 1998.

Notable gains occurred in shipments of value added (processed) agri-food products. Exports of these products rose 453 per cent from \$279 million in 1989 to \$1.5 billion in 1998. These products include: fresh, frozen and processed meats, canola oil, processed alfalfa, beverages, bakery products, other cereal preparations, animal feeds and other manufactured foods. In comparison, exports of raw commodities (animals and crops) rose 151 per cent from \$443 million to \$1.1 billion in 1998. In 1989, Alberta's agri-food exports to the U.S. consisted of 61 per cent primary commodities and 39 per cent value added processed products. By 1998, the share of value added products had grown to 58 per cent.

JAPAN

Exports to **Japan**, Alberta's second largest market, declined 11 per cent to \$675 million from \$759 million in 1997. Major declines occurred in exports of grains, oilseeds and pork.

Sales of canola seed, which traditionally account for about 40 per cent of Alberta's agri-food exports to Japan, declined 14 per cent to \$246 million and quantity was down 10 per cent to 588,503 tonnes.

Increases were posted in exports of beef and canola oil. Beef exports continued to grow, rising by 41 per cent to \$65 million. Also, sales of canola oil grew sharply by 50 per cent to \$23 million. On other hand, pork exports declined by more than 40 per cent in both value and quantity.

THE PEOPLE'S REPUBLIC OF CHINA

Revenues from exports to the **People's Republic of China**, Alberta's third largest market, rose significantly by 55 per cent to \$277 million, from a value of \$179 million in 1997. Increased exports of canola seed, at \$160 million, contributed to this growth. On the other hand, exports of wheat and barley continued to decline for a second year in a row. Sales of wheat, the major export commodity to China, fell 27 per cent to \$68 million, from \$94 million in 1997 and \$344 million in 1996.

OTHER ASIAN COUNTRIES

With the exception of China, agri-food exports to all other Asian countries declined in 1998. Overall, exports to the Asia region (26 per cent of total) were down 15 per cent to \$1.3 billion.

AFRICA

Alberta's agri-food exports to African countries rose significantly in 1997 and continued to grow in 1998, reaching \$229 million. This represented a 17 per cent increase from \$195 million in 1997. Exports to Algeria (the most significant African market) declined 32 per cent to \$73 million from \$108 million in 1997 because of

lower purchases of wheat. The decline was offset by increased exports to many other countries including South Africa, Morocco and Nigeria.

SOUTH AND CENTRAL AMERICA

Exports to the **South America** region dropped 25 per cent to \$203 million in 1998 from \$269 million in 1997. Sharply lower sales of wheat and barley to Brazil, Chile, Colombia and Venezuela, the most important markets in the region, contributed to this decline.

Declines in exports to South America were offset by increases in shipments to **Central America** and the Caribbean. Revenues from exports to this region amounted to \$234 million and represented a 18 per cent increase. Mexico, the most significant market in this region, ranked fourth largest among Alberta's agri-food foreign markets, with export revenue rising 23 per cent to \$178 million. Canola seed and wheat were the major export commodities.

OTHER REGIONS

With the exception of the United States, Central America and Africa exports to all other major regions were down in 1998.

Severe declines, at more than 60 per cent, occurred in exports to the Middle East and Oceania. Exports to Western Europe dropped 8.2 per cent. As well, revenues from exports to Eastern Europe were down 32 per cent as a result of 75 per cent reduction in exports to Russia.

r - Revised

Regions are sorted by the 1998 value of exports.

(1) Includes 15 countries: Belgium, Denmark, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, United Kingdom and as of January 1995 new members: Austria, Finland and Sweden.

The 1994 total does not include Austria, Finland and Sweden.

r - Revised

p - Preliminary

N/A - Not available due to confidentiality

(1) Alberta as a per cent of Canada

(2) Estimate is based on federally and provincially inspected slaughter only. It does not include killed and eaten on farms, killed and sold or commercial slaughter not elsewhere specified

(3) In 1995 and 1996, the number of sheep and lambs is reported for Western Canada.

(4) Dairy year basis August to July

INTERNATIONAL TRADE OF CANADA

CLASSIFICATION OF COUNTRIES

North America:

Canada
Greenland
St. Pierre and Miquelon
United States (includes Puerto Rico and the U.S. Virgin Islands)

Western Europe:

United Kingdom (includes the Channel Island)
Gibraltar
Ireland
Malta
Austria
Belgium
Denmark (includes the Faeroe Islands)
Finland
France (includes Andorra and Monaco)
Germany
Greece
Iceland
Italy (includes San Marino and Vatican City)
Luxembourg
Netherlands
Norway (includes Svalbard and Jan Mayen Islands)
Portugal (includes the Azores and Madeira Islands)
Spain (includes the Canary, Ceuta and other Islands)
Sweden
Switzerland (includes Liechtenstein and other enclaves)

Other Europe:

Republic of Albania
Republic of Bulgaria
Former Czechoslovakia (includes the Czech Rep. and Slovak Republic)
Republic of Hungary
Republic of Poland
Romania
Republic of Armenia
Azerbaijani Republic
Republic of Estonia
Republic of Latvia
Republic of Lithuania
Republic of Belarus
Ukraine

Former Yugoslavia (includes Slovenia, Croatia, Bosnia, Hercegovina and Macedonia)
Republic of Georgia
Republic of Kazakhstan
Republic of Kyrgyzstan
Republic of Moldova
Russian Federation
Republic of Tajikistan
Turkmenistan
Republic of Uzbekistan

Middle East:

Bahrain
Cyprus
Qatar
United Arab Emirates
Ethiopia
Iran, Islamic Republic of
Iraq
Israel
Jordan
Kuwait
Lebanon
Libyan Arab Jamahiriya
Oman
Saudi Arabia (includes the neutral zone between Iraq and Kuwait)
Somalia
Sudan
Syrian Arab Republic
Turkey
Egypt
Republic of Yemen (includes Democratic Republic of Yemen and the islands of Kamaran, Perim and Socotra)

Africa:

Gambia
Ghana
Kenya
Malawi
Republic of Mauritius
Nigeria
South Africa
Namibia
Zimbabwe
Sierra Leone
Tanzania, United Republic of
Uganda

Africa (Continued):

Zambia
Botswana
Lesotho
Swaziland
St. Helena (includes Ascension and Tristan da Cunha)
British Indian Ocean Territories
Seychelles
Algeria
Angola (includes Cabinda)
Cameroon
Burundi
Zaire
Central African Republic
Chad
Congo
Mali
Niger
Benin
Rwanda
Burkina Faso
Reunion
Djibouti
Comoros
French Southern Territories
Antarctica (previously included with the French Southern Territories. Includes the territories south of 60 degrees south latitude, January 1992)
Gabon
Bouvet Island (formerly included with the French Southern Territories, January 1992)
Guinea
Cote-d'Ivoire
Liberia
Madagascar
Mauritania
Morocco
Guinea-Bissau
Mozambique
Cape Verde
Sao Tome and Principe
